Iwatani International Industry Co.,Ltd., Japan (2006).

The IAHE is well run and seems to function with a very small number of staff. Perhaps the key to this is a well run body or board of directors which in itself tells a story about active people in the world hydrogen movement today. The officers of the Association are:

T. Nejat Veziroglu, President; Tokio Ohta, Japan, Vice President for the Pacific and Southeast Asia; David Scott, Canada, Vice President for the Americas; Carl-Jochen Winter, Germany, Vice President for Europe, Middle East and Africa; Melvin Morgenstern, U.S.A., Legal Counselor; and William J.D. Escher, U.S.A., Secretary.

The Board of Directors members (as of January 2007) are: H.K. Abdel-Aal, Egypt; Juan Carlos Bolcich, Argentina; James E. Funk, U.S.A.; Victor A. Goltsov, Ukraine; Stanislav R. Malysenko, Russia; Zong Qiang Mao, P.R. China; Cesare Marchetti, Italy; Richard E. Rocheleau, U.S.A.; Jacques Saint-Just, France; Yasukazu Saito, Japan; O.N. Srivastava, India; Giuseppe Spazzafumo, Italy; Alexander K. Stuart, Canada; William D. Van Vorst, USA; Frano Barbir, Croatia; Tapan Bose, Canada; Gibril S. Eljrushi, Libya; Inci Eroglu, Turkey; Nazim Muradov, U.S.A.; Thorsteinn I.Sigfusson, Iceland; Byeong Soo Oh, Korea; and John W. Sheffield, U.S.A.
